Background

The purpose of the Accessibility for Ontarians with Disabilities Act, 2005 (AODA) is to achieve accessibility with respect to goods, services, facilities, accommodation, employment, buildings, structures and premises in Ontario on or before January 01, 2025. The Act applies to organizations of all kinds (public, private, profit, non-profit, large, small), including hospitals, and requires the annual development of an Accessibility Plan to address barriers for people with disabilities. Common and sector-specific standards will be implemented by regulation – customer service, transportation, information and communications, built environment, and employment.

The Alexandra Hospital, Ingersoll (AHI) has prepared and posted its Accessibility Plan since 2003.

Accessible Customer Service

Accessible Customer Service includes various forms of customer service – in person, telephone, electronic, mail, oral, visual, written; delivered by employees, volunteers or third parties.

DEFINITIONS
